My application for an apprenticeship

Step 1: Gain an overview

1. Take the overview of **My research** at hand.
2. Look at the relevant websites. 3. Work in small groups (according to...) (Divided professional interests):
4. Enter keywords in the line "what is helpful for".

Where can we find information about open apprenticeship positions that are of interest to us? What information is important for creating our application?
And what information is important for our job interview?

Step 2: My training

Using this profile, you can now research and note down all the important information about your desired training programs.

Research the information on the (helpful) pages and fill out this profile.

Are you considering several apprenticeships? Copy the profile or roughly sketch it and fill it in accordingly.

This material also belongs in your career choice portfolio.
