My practice elements

Why my practical elements?

It's about you...

practical experience under real training and
Collect and document study conditions,
Key qualifications such as teamwork skills
further develop,
based on previous practical experience regarding
Consider your interest in specific career fields.

What is being done?

They complete further internships and participate in workshops or taster days.
Practical elements last a minimum of five days in total, which can be divided into various events.
They take place, for example, in industrial, commercial or craft businesses, in medical practices, engineering offices, city administrations or universities.
Internships abroad are also possible.

When will what happen?

The practical components should take place during the introductory phase (at grammar schools and comprehensive schools) or in grade 11 (at vocational colleges).
Schools either set aside time slots for this or grant time off.

And my career choice passport?

The following documents will be filed in this part of the career choice passport:
Documentation, activity reports, interview results, own work results.

Recommendation:
Please file certificates of participation in practical elements and testimonials in "My Documents".
